REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the limitation of a polishing fixture comprising a holding plate having a receptacle for receiving a fiber optic connector having a first side and second side, a clamping arm disposed for generally linear movement relative to the holding plate and the received connector, as well as for pivotal movement relative to the holding plate and the received connector, the clamping arm having first and second clamping portions for engaging the first and second sides of the connector, and an actuator mechanism for moving the clamping arm generally linearly to bring the first clamping portion into clamping engagement with the first side of the connector, and to bring the second clamping portion into clamping engagement with the second side of the connector, was not found in the prior art.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Franklin et al., Suek et al. and Mock, Jr. et. al were cited to show other examples of fiber optic holders.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shantese L. McDonald whose telephone number is (703) 308-8722. The examiner can normally be reached on 8:00 a.m. - 4:30 p.m..
